George Dudin

Moscow, Russia • gvdudin@yandex.ru • tg: @georgedudin

Professional Summary

Experienced Product Manager and System Analyst with a strong background in designing and implementing high-load, low-latency services. Proven track record in leading cross-functional teams, collaborating with major clients like Google, Alipay, DB and Amtrak, and driving revenue growth through innovative solutions.

Education

Higher School of Economics   Moscow, Russia
BSc, Faculty of Computer Science, Applied Mathematics and Informatics   Jun 2020 – Jul 2024
Relevant Coursework: RL Trajectory Planning of CartPole System

London School of Economics and Political Science   London, GB
BSc, Faculty of Computer Science, Data Science   Sep 2021 – May 2024

Study Abroad **Harbour.Space University**   Barcelona, Spain
Faculty of Computer Science, Machine Learning Bootcamp   Sep 2023 – Mar 2024

Experience

Distribusion GmbH   Berlin, Germany [Hybrid]
Lead Product Manager   Jan 2024 – Oct 2024

- Led the product strategy and roadmap for SaaS B2B and B2B2C platforms, focusing on core APIs and additional products.
- Managed cross-functional teams to deliver innovative solutions, enhancing customer experience and driving revenue growth.
- Established and nurtured key partnerships, facilitating collaborations with major clients such as **Google** and **Amtrak**.
- Contributed to unlocking new customers and increasing sales by over **20%** through product innovation and strategic planning.

System Analyst   Nov 2022 – Dec 2023

- Designed and implemented a low-latency, high-load real-time data service handling over **30,000 RPM**, enabling live bus tracking for customers and integration with partners like Google.
- Led the architectural design of the **Portal** platform from scratch—a web application for carriers and retailers to manage trades, bookings, and more—resulting in securing a major deal with Amtrak and launching successfully in under **6 months**.
- Developed an ORY-based RBAC authentication and authorization system covering APIs, Portal, and white-label solutions, integrating with services like **Alipay** to expand market reach.
- Built a comprehensive dashboard for real-time data series analysis, enhancing data visibility and decision-making processes.
- Actively communicated and coordinated with major clients, ensuring alignment of technical solutions with client needs and facilitating smooth integrations.

Skills & Interests

Technical Skills: Proficient in Python, REST API, Kafka, Avro models, SQL; experienced with microservices architecture, real-time data processing, and API integrations development; huge expertise in authentication systems.
Languages: Native Russian; Fluent in English [C1];
Interests: Machine Learning, robotics, racing
